

Instructions for Installing Patches

(SQLite Version Only)

1. Download latest patch from sourceforge.net/projects/blueseer/files/<patches> dir folder
2. Unzip the .zip file into the 'blueseer/patches/' directory.
 - You should have a folder structure like 'blueseer/patches/patchVxxPzz'
 - where patchVxxPzz is a directory containing the patch files.
 - xx = version
 - zz = patchnumber
 - patch directory contains contents as shown in Figure 1.
3. Open the cmd prompt and cd to directory blueseer/patches/patchVxxPzz
4. type ./patch_install.bat at the command prompt (See Figure 2 below)
5. ...You're Done! :) See Figure 3

Figure 1. Contents of Patch Directory

Figure 2. Directory listing of typical patch directory and running patch_install.bat at the cmd line.

```
Command Prompt
c:\BlueSeer\patches\patchV43P46>dir
Volume in drive C has no label.
Volume Serial Number is 5ED3-7951

Directory of c:\BlueSeer\patches\patchV43P46

01/29/2020 02:19 PM <DIR>      .
01/29/2020 02:19 PM <DIR>      ..
01/29/2020 02:18 PM          4 .patch
01/29/2020 09:14 AM         314 .patchsqlitev43
